The old colonial town has skilfully navigated the transition to economic growth, becoming a wealthy tourist destination. With its five **Marble Mountains**, its 72-metre high Buddha and white sand beach, Da Nang will create some magical memories, made sublime by a secular culinary tradition that has nothing left to prove. ## QUY NHON

Arrival 18/10/2022 midday

Departure 18/10/2022 early evening

When your ship calls at **Quy Nhon** you will be able to discover the **Ganh Da Dia**, an area of impressive basalt rock formations created by a volcanic eruption that occurred 200 million years ago. When the blocks of lava came into contact with the freezing water, neat vertical fissures appeared, forming an amalgam of columns whose surface, once cooled, became square, round or hexagonal. Some are vertical, others oblique, and in places they are of different sizes. Some of the structures almost look like piled up dishes. You will be able to discover this surprising rock formation which, although made entirely by nature, seems to have been perfectly designed by man.

Departure 20/10/2022 midday

**Nha Trang**, the capital of the **Khanh Hoa** province in **Vietnam**, is a coastal city with 300,000 inhabitants. Famous for its long, 7-km white sand beach along which runs **Tran Phu Street**, the city's main thoroughfare, **Nha Trang** is a member of the Most Beautiful Bays in the World Club, an international association that includes 41 bays. You'll succumb to the magic of this hectic city, where everything is about contrast, like the very brightly-coloured district of **Cholon**, Saigon's "Chinatown".
