### YOUR CRUISE

We are offering you the opportunity to embark aboard le Austral for a cruise, a journey to discover New Zealand, a unique destination with a myriad of natural treasures.

Aotearoa, "the Land of the Long White Cloud", rises from the deep blue of the Pacific Ocean, offering travellers an insular realm, a garden of Eden with an infinity of landscapes.

Whereas the North Island is volcanic and home to tropical rainforests, romantic lakes, and hot springs with sulphurous geysers, the South Island boasts alpine peaks interlaced with fjords, snow-capped mountains and majestic glaciers that stretch out to meet vast green pastures.

### FOCUS ON... TAURANGA

Located to the north of Rotorua, Tauranga stretches the length of the Bay of Plenty, sheltered from the ocean by the island of Matakana. This coastal city boasts a flourishing economy thanks to its port, and is a pleasant and pretty town with a peaceful, relaxed feel. The seafront area is contemporary and lively, dotted with cafés and restaurants. The town centre reveals more picturesque charms, while the surrounding area is packed full of natural delights. Travel on to the town of Rotorua to visit the Wai-O-Tapu Thermal Wonderland: a fantastic opportunity to experience an absolutely exceptional geothermal phenomenon.
