Disembarkation 04/22/2019 at 07h00

### YOUR CRUISE

From Panama to the United States, PONANT is inviting you to discover no fewer than 7 countries during a single cruise. Join us aboard *Le Boréal* for an all-new and exciting 12-day itinerary.

On the first leg of your trip, you will sail up the east coast of Central America from Colon, at the Atlantic entrance to the mythical Panama Canal.

From your port of call in Santo Tomas de Castilla in Guatemala, don't miss your chance to visit the Mayan site of Tikal. There, you will be able to admire superb temples, palaces and pyramids nestling amid lush vegetation.

Discover Belize, a small paradise covered in tropical rainforest. Its coast gives onto the Caribbean Sea and is home to a very large barrier reef, as well as the spectacular Blue Hole, one of the world's top scuba diving spots.

*Le Boréal* will then sail northward to call at Progreso, the departure point of an unforgettable excursion to Chichen Itza or Uxmal, two sites with must-see vestiges of Pre-Columbian civilisation.

Your unforgettable trip will draw to an end in Miami, Florida.
