YOUR CRUISE

PONANT invites you on a 13-day cruise aboard *Le Dumont-d'Urville*. On this brand-new and particularly rich itinerary, discover a wide variety of landscapes : lush islands, white-sand beaches and the Orinoco River during a 3-days expedition with our naturalist guides.

Leaving from Martinique, you will head in the direction of the beautiful island of Saint Lucia. Close to the Soufriere volcano, you will be enchanted by the two emblematic rocky pitons, UNESCO World Heritage Sites, which form the backdrop to the island.

Then discover the idyllic beaches of Saint Vincent and the Grenadines, renowned for the richness of their underwater world. In a setting of white sand, turquoise water and lagoons, you will enjoy some unforgettable bathing.

After a day in Grenada, *Le Dumont-d'Urville* will then sail towards the Venezuelan coast, in order to reach the Orinoco, one of South America's major rivers. During your outings in Zodiac® dinghies, you will fall under the spell of the very special atmosphere here, between the birdsong from the surrounding jungle and the unforgettable encounters with local populations.

On the island of Barbados, be sure to visit Bridgetown and its landmarks which are typical examples of British colonial architecture, before heading on to Fort-de-France, your disembarkation port.

Subject to weather and river conditions. The expedition highlights, encounters with the wildlife and itineraries described above illustrate possible experiences only and cannot be guaranteed.
