- 25 Kangerlussuaq (Greenland)
Disembarkation 08/14/2020 at 00h00

YOUR CRUISE

Discover a PONANT itinerary to the heart of Ultima Thule, a legendary stopover for those in love with the polar regions.

Step aboard the *L'Austral* in Kangerlussuaq for a 17-day expedition cruise to the farthest reaches of the planet.

Between ice caps and ice floes, past glaciers, icebergs and brash ice, sail to the heart of the northern hemisphere's biggest ice producer.

You will stop over at Skraeling Island (Pim Island), the northernmost point reached by the Vikings, then return via the path taken by the famous American expedition led by Adolphus Greely.

From Greenland's west coast with its mountains softened by glaciers to the Arctic mountain range's steep slopes and Thule's high Arctic tundra, you will be sailing through the polar region's most spectacular landscapes.

Polar bears, musk ox and Arctic wolves: journey to see this amazingly rich fauna.

We are privileged guests in these remote lands where we are at the mercy of weather, ice, tidal and current conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the AECO.
